DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II in the reply filed on January 18, 2005 is acknowledged. However, upon further consideration, the requirement for restriction is withdrawn and all claims, 1-52, will be examined together.

Allowable Subject Matter

Claims 1-52 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 31, which include a miniature microscope objective having an image size variation less than an image sampling distance along with the other recited features of the outer diameter dimension and numerical aperture (NA) range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Leidig, DeJager and Yokota are all cited to show microscope objectives have some similar structure or conditions, but do not teach or suggest the image size variation condition.
